RUSHVILLE, IND., AUG. 27, 1906

In accepting the nomination for President in 1904, President Roosevelt said: "We who have been entrusted with power as public servants during the past seven years of administration and legislation now come before the people content to be judged by our record of achievement."

Hon. A. L. Crim, of Lafayette, Prohibition candidate for Secretary of State, opened the campaign at New Castle in a speech in which both parties were bitterly scored because of their alleged position on the liquor license question. During the course of his remarks Mr. Crim took occasion to say that he knew Rev. Kuhn who is opposing Congressman Watson on the Democratic ticket, and that years ago Kuhn spelled his name just like any other C-o-o-n, but that in late years he made a change.

In the terrorist murders that are taking place in Russia, the country is reaping what it has sowed. It has cultivated an ignorant, brutal and superstitious populace, whom it has ruled by force and kept under subjection with the knout and sword. Such a populace, when it rises in revolt, will use the methods with which it has been made familiar by its oppressors. Those beaten down with arms will rise with arms in their hands and will return to their rulers what their rulers have given them.

Vice President Charles W. Fairbanks recently said: "It is with especial pride that we point to the fact that our labor is better paid than the labor of any other country. Our effort has been to maintain a high wage scale, upon generally accepted theory and belief that well paid labor means better citizens and a better country than we could possibly enjoy if wages were forced to a low standard. A low wage market is most undesirable. It is not in the interest of either capital or labor, that we shall open the way to free admission of oriental cheap labor, which will inevitably result in lower wages to our laborers."

Overseer Voliva, of the city that Dowie built and wrecked, avers that the devil has invaded Zion. He makes this assertion on the strength of the fact that the young people have become theatregoers, card players and tobacco-smokers and dancers. "I propose," says Overseer Voliva, "to divide Zion into districts, alphabetically arranged, and each district will be in charge of some sober-minded deacon, who shall act as monitor of the young people of the district." If the young people are possessed of any spirit, the city of Zion will need to be enclosed in a fence that is more than horse-high and bull-proof to keep them under the observation of the sober-minded deacons. And somebody will be needed to watch the deacons.

## Score Cards for Card Parties.

The REPUBLICAN office has prepared regular score cards for card parties, divided into eight spaces, and the figures printed in each space. A blank is provided for number of table, etc., and a hole punched in the top, so that the card is ready for use. ## IN GREAT DEMAND

Missouri Republicans Send Up a Mac-edonian Cry for Senator Beveridge.

Indianapolis, Ind., August 27.—The Republican state central committee of Indiana is working with the officials of the Missouri state organization in an effort to get Albert J. Beveridge, senior United States senator from Indiana, to make campaign speeches in Missouri for one week next month. The state organization of Missouri is especially anxious that Senator Beveridge include them in the list of the places in which he will deliver addresses. They have been urging the Indiana committee to assist them, and the committee is now endeavoring to get Mr. Beveridge to accept the invitation. Mr. Madison, of the speakers' bureau of the Missouri organization, is desirous that Mr. Beveridge remain at least a week in the state, and if he can prevail upon him to allow so heavy a schedule, arrangements for two speeches a day will be made. St. Louis, Kansas City and Sedalia will be included in the itinerary. Arrangements are already being made for speeches in these cities, so that should Mr. Beveridge give his consent, there would be no hitch as to time and place, and his time can be utilized to its fullest extent.

How aggressive the political fight in Marion county is to be this year has been nicely illustrated by the opening of the campaign on the part of the Democrats. The opening was not a big meeting with plenty of oratory and the other marks of the usual vote-getting canvass. Instead of that a number of the candidates for county office have begun a house-to-house canvass. They visited Franklin township Saturday, and it is their intention to make the same kind of canvass, laying their claims personally before as many voters as they can in the out townships. Of course in Indianapolis this would be an impossibility, but they will make every effort to reach every voter in the county in some way or other. Beginning the campaign in this way and so early in the year, shows pretty well that the Democrats mean to make a hard fight, and the Republicans may expect a decidedly stubborn resistance.

A statement of the results accomplished by the levy of 6 mills for those school townships of the state not able to maintain a minimum six months' school without extra levy, has been issued by State Superintendent Fassett A. Cotton in a letter written to State Representative Kean of Dubois county. Kean introduced the measure, which was passed by the last legislature. In the letter Mr. Cotton states that sixty-two corporations of eighteen counties benefited by this levy to the total amount of 30,490 since the law became effective. The following counties received most aid: Harrison, twelve corporations; Crawford, eight; Washington, five; Martin, five; Owen, four; Jennings, four; Brown, four; Dearborn, three; Jefferson, three; Clark, two; while Spencer, Scott, Starke, Perry, Morgan, Huntington and Greene counties each had one corporation that was benefited. It is expected that many other corporations will be benefited this year.

Gus S. Condo of Marion, present representative in the general assembly from Grant county and candidate for re-election, as well as candidate for speaker of the house in the event of his re-election, was in Indianapolis Saturday and his official boom accompanied him. Mr. Condo is getting ready to make a good fight for the speakership. He believes in getting into the game early and letting the people know what he wants, and has done this so effectively that he is now looked upon as the most probable candidate for the place upon the Republican side. While there is talk of opposition to him, and it is pretty certain that there will be other ambitious representatives, according to the political forecaster, should he keep up his present rate, he will be in a position to dictate terms. He has a nice lead, the politicians say, and he now has his campaign in good shape.

Governor Hanly has decided to attend the next meeting of the international policy holders' committee, which will meet in New York, Sept. 3. The governor was chosen as one of the first members of this committee. He was previously invited by Thomas W. Lawson to become a member of the governors' committee which has given way to the present international body. So far the governor has found it impossible to attend any sessions of the committee, but the next one will be very important and he will attend. From New York he will go to Maine to deliver a series of campaign speeches which he has been invited to give in that state.

**Americans Will Help Out.**  
Berlin, Aug. 27.—Emperor William's grandson, the first son of Crown Prince Frederick William of Hohenzollern, who was born July 4 last, will be baptized Wednesday. King Edward and the emperors of Austria and Russia will be the godfathers. To mark the fact that the child was born on the Fourth of July the American colony at Berlin has resolved to present him with a silver cup emblazoned with the American flag and eagle.

**Our Rapidly Growing Trade.**  
Washington, Aug. 27.—The imports for the month of July, according to the monthly statement issued by the department of commerce and labor were \$102,586,797, as against \$84,512,606 for July, 1905, while the total amount of exports for July, 1906, were \$111,551,415, as against \$107,930,421 for July, 1905.

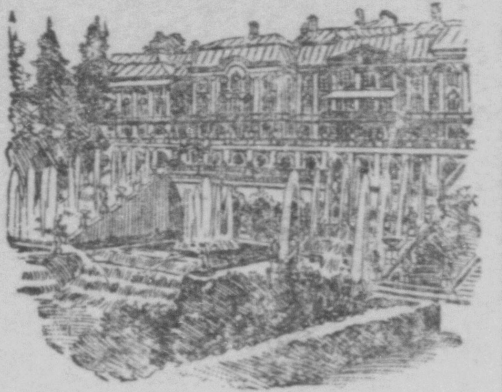

## YOUNG GIRL SHOTS

Peterhof is Invaded and Sentence of "Reds" is Executed.

St. Petersburg, August 27.—General Min, commander of the Semenovskiy guard regiment, who suppressed the riots at Moscow last December, was assassinated at Peterhof last night. General Min was at the railway station with his family when he was killed. The deed was committed by a young girl, who fired five shots from a revolver into his back, killing him instantly.

Madame Min seized the assassin by the hand and held her until the police arrived. After her arrest the girl showed the police a bomb lying in the station, telling them to beware.

This was the third successive attempt on the life of General Min, who was condemned to death by the terrorists immediately after the Moscow revolt last December, on account of

PETERHOF PALACE.

stern repression practiced by a battalion under his command and especially for the wholesale execution of persons condemned by drum-head courtmartial for being caught with arms.

General Min was returning from his summer residence at Peterhof and had just greeted his wife and a daughter on the platform when a young woman—almost a girl—approached from behind and fired two shots into his back and then three shots into his body as it sank to the ground. Further shots were prevented by Madame Min, who threw herself upon the murderer and seized the hand which held the pistol. The woman did not attempt to escape, but she cautioned Madame Min not to touch a handbag which she had placed on the platform before shooting the general, explaining it contained a bomb.

To the police the girl acknowledged that she had done the deed, saying she had executed the sentence of the fighting organization of the social revolutionists, but refused to give her name.

By a remarkable coincidence General Min only last week after the conclusion of the maneuvers at Krasnoye-Selo, dismissed the bodyguard which had accompanied him since the first attempt was made on his life, saying that the ordinary police of Peterhof would be sufficient to guard him.

**Assemblages Discountenanced.**  
Yudovka, Russia, Aug. 27.—After a meeting of workmen Sunday which was addressed by ex-member of Parliament Michailchenko, shots were fired. This resulted in an encounter between the workmen and Cossacks and police, the latter firing nine volleys, which killed eight persons and wounded thirty-two.

# A CHURCH UNION

Movement to Combine Three Denominations is Growing.

## FEELING IN INDIANA

Proposition to Merge United Brethren Methodist Protestant and Congregational Churches Finds Favor.

Such a Combine Would Unite a Membership of More Than a Million and Control About Fifty Colleges.

Hartford City, Ind., Aug. 27.—The ministers and lay delegates to the annual White River conference of the United Brethren churches of the Indianapolis and Marion districts are strongly in favor of church union and the consolidation is being talked of with much earnestness.

The proposed union would bring together the United Brethren, Methodist Protestant and the Congregational churches, making a denomination 1,100,000 strong. This denomination would control about fifty colleges, a half dozen theological seminaries, some seven or eight publishing houses and would be represented by missionaries in nearly all the foreign lands. In the United States it would be represented in almost every section of the country.

This question will be acted upon by the tri-council, representing the three churches, and will come again before the general conference of the churches, and will be finally acted on by the entire membership of each denomination.

## FORTUNE PROVES MAN'S RUIN

Sudden Rise to Wealth Too Much for Indiana Man.

Plymouth, Ind., Aug. 27.—Six years ago M. W. Simon was a poor station agent at Plymouth. One day word reached him that he had been killed \$400,000 by an aunt he hardly knew. He built a fine home, took his family on long journeys, visited Denver, lost his fortune and his mind, and died a couple of days ago in the Denver county hospital, a maniac.

When Simon fell heir to the fortune he was already well past middle life. He was a happy man and apparently of a well-balanced mind. When he went to Denver a few months ago he fell into the hands of mining sharks, who soon induced him to part with his fortune.

He was looking for work when a ticket he held drew an automobile offered by a Denver merchant. The next day he was offered \$4,000 for the mining stock he considered worthless. This sudden good fortune destroyed his reason and a week later, according to the story which has reached here, he died.

## One Way of Trust Busting.

Laporte, Ind., Aug. 27.—The Eagles of this city threaten to wage an interesting war on the combination of physicians recently organized in this city, which the Eagles say is a union in which all of the doctors have entered and which resulted in the fees being materially raised. The Eagles have been in correspondence with several physicians out of the city and will bring one into the field, thus waging open war on what they term is a trust.

## Looking for a Good Time.

Kokomo, Ind., Aug. 27.—Lucy Hill, eleven years old, daughter of Frank Hill, a week ago last Saturday took \$140 from a dresser, bought some new clothes, jewelry and a railway ticket to Dallas, Tex. She started south alone. Her parents thought she had been stolen, but Sunday she was heard from in Oklahoma. She will be returned to her father. "Oh, I just went out to have the time of my life," was her explanation.

## Police Force Reorganized.

South Bend, Ind., Aug. 27.—Because of failure to cope with the carnival of crime which has held the city terror-stricken during the last few months, the board of public safety has announced that no more laxity will be tolerated and that official heads will be cut off for the least offense. The city has been redistricted and the department thoroughly reorganized.

## Farmers Make Good Detectives.

Indianapolis, Aug. 27.—After a continuous chase lasting thirty-six hours, farmers living in the neighborhood of West Newton overtook and arrested Guy Krable four miles south of Terre Haute early Sunday. Mr. Bryan is a passenger on board the North German Lloyd steamer Prinzess Irene, which is expected to reach New York next Wednesday or Thursday. The great popular reception to the Nebraskan will be held at Madison Square Garden on Thursday evening under the auspices of the Commercial Travelers' Anti-Trust League. Mayor Tom L. Johnson of Cleveland will preside at the reception and representative Democrats from all sections of the United States will be present. Mr. Bryan is expected to make a two hours' speech and to address one or more open-air meetings in Madison Square composed of those who are unable to gain admittance to the Garden. The Madison Square reception will be but the beginning of a long series of similar affairs on a smaller scale which will end with a big public meeting of welcome when Mr. Bryan reaches his home in Lincoln, Neb.

On Friday, the day after the Madison Square Garden reception, Mr. Bryan will leave for New Haven in company with a large delegation of his Connecticut supporters. In New Haven he will be the guest of the New Haven Democratic club and will deliver his address in the open air. An interesting feature of his visit there will be a conference of leading Democrats from New England, including candidates for governor, mayors of cities, Democratic state committee-men and the New England members of the Democratic national committee. This conference, it is announced, is for the purpose of agreeing upon a common basis for the campaigns of this year and of two years hence. From New Haven Mr. Bryan will go to Bridgeport, where he will deliver an address in the evening and on the following day he will address a meeting at Jersey City. On Saturday night he will be the guest of active newspaper men who cover political assignments for their papers.

### BY THE WAYSIDE

Maud Muller on a summer day, with her fellow ran away, in a benzine touring car, scooting to a preacher far. Maud's father saw the fleeing pair—smelled the benzine scented air; caught a mule whose name was Jane, and galloped down the dusty lane; the mule very swiftly ran but burned the oil all out the can. The motor stopped upon a hill, but Jane ran on

just fit to kill. Alas for maid, alas for man, alas for empty benzine can. Maud's daddy on the cold gray mule, came and took her off to school. The mule nigh wrecked the benzine cart; the feller died of a broken heart. The moral of this tale so sad: "Don't steal the girl; go ask her dad."

## SEEING IS BELIEVING

Wadsworth Bros.' Chico is a Long Havana Filler. Says Thos. W. Lytle and He Proves it.

When a cigar salesman told Thos. W. Lytle of Lytle's Drug Store that it was not possible to sell a long Havana filler, such as he claims the Wadsworth Bros.' Chico is, for 5c., the reply was: "Well, it is an easy thing to see whether it can be done or not," and he took a Chico from his box and cut it open.

The filler was there—long, rich, silky Havana—just what was needed to make the good smoke that the Chico is. Seeing is believing, but the Chico smoking is better. Try one and see for yourself, all lovers of a good smoke, how fine a cigar can be sold for 5c. The best people in Rushville, those who never used to smoke anything less than a 10c. cigar, now buy the Chico at Lytle's Drug Store for a nickel, and get a better smoke for less money.
